Introduction

I am Bayor-Black Abdul-Matin Olalekan, I am I am a self-trained software developer specializing in Front-end development for web applications. With over 2 years of programming experience, I have worked on various projects as a freelancer, primarily focusing on front-end development. I am a self-motivated and passionate software developer specializing in Front-end development. With expertise in JavaScript, Reactjs framework, and CSS frameworks, I am proficient in creating interactive web applications, writing business logic, and implementing responsive designs. My experience includes working on various freelance projects and completing an intern ship, where I gained exposure to industry-standard methodologies and practices. With a strong understanding of the web development process and a commitment to delivering high-quality results, I am ready to contribute to challenging projects and continue to enhance my skills in the ever-evolving field of software development.

Professional Expertise

Freelance Front-end Developer: Successfully completed multiple projects as a front-end developer, utilizing my expertise in JavaScript (ES7), Reactjs framework, and various methodologies, patterns, and architectural designs.

Internship at CodeWeb Solution: Gained valuable experience in JavaScript (ES7) and ReactJS Framework, working with a team on different projects and implementing agile-like development processes.
